

Project Dinnertime – School to Home

What is Project Dinnertime – School to Home?

Project Dinnertime – School to Home aims to empower students with skills to prepare nutritious food with confidence. Targeting Years 9 & 10 students, *Project Dinnertime- School to Home* addresses the current concern that many of our young people carry responsibility for looking after themselves and others in their home environments, with limited or no basic nutrition and food preparation skills.

This innovative resource addresses components of the Australian Curriculum, however it is not intended to replace a Food Technology unit.
